# DENMARK

Denmark, a part of Scandinavia, covers an area of well over 43,000 sq. km. Out of approximately 5 million inhabitants about 30% are employed in industry and about 9% in agriculture. The capital is Copenhagen with a total population of about 1.5 million.

In recent years, Danish agriculture has experienced a dynamic structural reorganization. New rational production methods have been introduced bringing about a substantial increase in productivity. Danish agriculture is an export trade of vital importance to Danish society. About 2/3 of its total production, enough to meet the food requirements of approximately 16 million people, is exported.

## CLUBS HISTORY

Around 1928 to 1929, three Danish clubs surfaced in Calgary. In 1933, the three clubs decided that it would be to their mutual benefit if they joined forces. So on November 30, 1933 a new club was formed by 72 chartered members and it was named, "The Danish Canadian Society".

In 1944, the club moved into its own premises at 114 - 7th Avenue S.E. next to the York Hotel.

On November 9, 1945, the name of the Club was changed to its present name, "The Danish Canadian Club".

In 1964, the Club sold its property on 7th Avenue and purchased and moved into its present 11th Avenue property.
